Naples, September 12.

THE last week parted from hence the Spanish Gallies, 22 in number, for *Final*; The 9th instant an Extraordinary Courier arrived here from the Governor of *Milan*, upon which the Collateral Council of this City was Assembled; And the next day three great Tartanes laden with Provisions and Ammunition, were sent from hence to joyn the said Gallies. On *Thursday* last returned hither the Gallies of the Great Duke of *Tuscany* from the *Levant*, having left the Venetian Fleet since the taking of *Coron*. The same day parted from hence two Gallies of *Genoua* laden with Silk.

Rome, Sept. 15. On *Tuesday* last dyed here Cardinal *Paulo Savelli de Monalto*, in the 63 year of his age, and the 20th of his Cardanalate; By his death a twenty seventh place is become Vacant in the Colledge of Cardinals. The Cardinal *Cibo* had this week an Audience of the Pope concerning the Affairs of *Hungary*, upon which his Holiness hath sent a considerable summ of mony to his Nuntio at *Vienna* to be employed in the War.

Genoua, Sept. 16. The Great Council, being assembled on *Thursday* last, to deliberate about divers publick Affairs, made choice of Signior *Gio Battista della Rovere*, to go and reside at the Court of *France* in Quality of Envoy Extraordinary from this Republick, but it's said he has prayed to be excused from that Employment. The Spanish Gallies, which passed the 10th instant within sight of this City, are we hear arrived at *Porto Longone*. By a Vessel arrived from *Toulon* we are informed, that the 15 French Gallies have joyned their Men of War that were lately before *Tripoli* under the Command of the Mareschal *d' Estree*.

Warsaw, Sept. 16. The last Letters from *Lembourg* gave an account, that the Sieur *Demideski* having received advice that the Turks were marching to put a great Convoy into *Camaniec*, he drew together what Troops he could from the Neighbouring Garisons, and sent Orders to the Sieur *Lesmiski* and Colonel *Potoschi* to joyn him with the Forces of their divisions, which they having accordingly done, they marched together towards *Coechin*, but arriving near that place, were informed that the said Convoy, which was guarded by 5000 Turks, under the Orders of *Suin* Bassa and two other Bassa's and 6000 Tartars of *Bialogrod*, under the Command of their General *Smailo*, was got into *Caminiec*, and that the Enemy after having refreshed themselves one day, had divided into four Bodies one taking their march towards *Zabiatiow* and the others towards *Kossow*, *Sniatin* and *Romanow*, from whence having made incursions into *Prucutia* and *Volinia*, they afterwards all rejoyned at *Constantinow*, where they were attacked by a detachement from the Polish Army, and entirely routed, above 2000 of them being slain, and all the Plunder they had taken recovered, and that a great many more had been afterwards killed by the Country People. The Polish Army according to our last advices, was encamped at *Hussia* near the *Niester*, where they expected the Forces of *Lithuania* to joyn with them. The Cham of *Tartary* had joyned the Serasquier *Soliman*, having together an Army of about 35000 Men; They had posted themselves near the *Niester* to hinder the Poles from passing that River.

Vienna, Sept. 20. Our last Letters from the Imperial Camp near *Barkan*, were dated the 17th instant; They give an account, That the Baron *de Merci* and Colonel *Heusler* marched the 10th with 8000 Men towards *Agria*, and took with them several pieces of Cannon and Mortars, having Orders to Attack that place with Bombs, and to possess themselves of several posts in order to block it up during the Winter, as well as to secure the Quarters which the Imperialists intend to take on the other side of the *Theis*. That the Duke of *Lorrain* had sent another detachement of 6000 Men to reinforce the Army in *Croatia*, which according to our last Letters from thence, was marching towards *Sclavonia*. That the Parties his Highness had sent out to learn news of the Enemy, confirmed the account he had before had from the Prisoners, that the Serasquier *Ibrahim* was encamped with 15000 Horse and 8000 Foot, near the *Danube*, about six miles below *Buda*; And that there were 2000 Janisaries in *Pest*, and 8000 in *Buda*. The Count *de Rabata* Commissary General hath sent this week a summ of mony to *Newhensel*, to be employed for the repairing the Fortifications of that place, which they work upon with great diligence. The Prince *de Lubomirski*, Ambassador Extraordinary from the King of *Poland*, hath had his Publick Audiences, and made the Compliments he was charged with, upon the Elector of *Bavaria's* Marriage with the Arch-Dutchess: And the Count *de Magliano*, Envoy Extraordinary from the Duke of *Savoy*, has performed the same Commission on the part of that Prince. The Emperor has given the Government of *Varasdin*, Vacant by the death of the Marquis *de Grana*, to the Prince *de Salme*, Governor to the Arch-Duke *Joseph*. The Letters from *Poland* tell us that the Forces of *Lithuania* had joyned with those of the Crown; That the Generals had resolved to pass the *Niester*, and to enter into *Moldavia*, but that a Body of Turks and Tartars had posted themselves on the other side of that River to dispute their passage.

Vienna, Sept. 23. The Emperor we are told, has written to the Duke of *Lorrain* not to grant the Passport demanded by the Serasquier *Ibrahim*, for the Envoy he would send hither with Proposals for a Truce: And Count *Teckelies* Secretary, who is come hither with like Overtures from him, will be sent back with an Answer not at all to his satisfaction. The Duke of *Lorrain* continued encamped the 20th of this month near *Barkan*, but the season is so far advanced, that no considerable Action can be undertaken, and therefore they talk of nothing but of going into Winter Quarters to preserve the Troops, which are now in so good a posture, that they will be recruited with little trouble and expence, and easily put into a condition to begin the Campagne very early next year. On *Friday* last arrived here an Express, being sent by General *Schultz* to give the Emperor an account of the surrender of *Esperies*; The particulars we have of it, are, That on the 10th instant the Governor desired a Parley, and a Cessation of Hostilities
